tions to the reserve, notified the office of his approval of the limited area as recommended by the superintendent, and which received your approval and that of the President. The land is shown to be moun- tainous, the head of various small streams, and with but few settlers or other holdings. It was found that in making such additions the reserve boundaries would be made more regular and that there could exist little basis for the abuses which have been practiced under the liculand privilege, while advantages would follow to the public by such action so generally indorsed. WITHDRAWALS FOR TOWN AND CITY WATER-SUPPLY. The only further direction in the matter of land withdrawals made by me since October 2, 1899, has relation to small areas near certain large cities and towns, wherein it was shown by petition of municipal authorities, Representatives in Congress, or by people residing in the vicinity that such areas were timbered, mountainous, and contained the sources of streams which were essential to such towns and cities for their water supply, and that by an early withholding of such areas from disposition until they could be regularly constituted forest reserves would greatly conserve the water supply, and in the mean-	ogle 🗞 -	"salt lake forest	t reserve"	~	Go 💠 🍏 News	🍪 Google Ba	ooks (+g &⇒)	🐔 Look for Map	👻 🌛 Highli	ight			0) Set
