Options were arrived at for further consideration. Fall-back of Hold Harmless Option was also discussed and conceptually agreed upon. Option and map developed and distributed for review.
- 11/10/2018 – Meeting by Chris Robinson and Ralph Becker w/ Save Our Canyons Board to review 11/9 options and consider other options. 11/9 option not acceptable to Save Our Canyons, two other options developed. - 11/10/2018 – Communications among Mike Maughan, Laura Briefer, and Ralph Becker regarding snowmaking water for Alta Ski Lifts. Decided that the four ski areas and SLCDPU w/ Central Wasatch Commission would come together to address the topic together and consider a common framework for water needed for snowmaking that would be consistent for all the ski areas. (Not a legislative item, but important for future decision making and a part of CWNCRRA discussions.)
- 11/12/2018 – Mtg w/ Chris McCandless, Chris Robinson (by phone), Ralph Becker, Jesse Dean to discuss what to propose to the Central Wasatch Commission to move ahead with legislative proposal. Joined for part of meeting by Chris Adams (Backcountry Skiers Alliance) to determine their acceptance of options. - 11/14/2018 – Email sent to parties that presented two options with maps, asking for prompt response. Resulted in string of 38 emails and many phone conversations among the parties. Final conclusion: fall-back Hold Harmless position and legislative approach only option that achieves consensus.

- 11/16/2018 – Proposal from Save Our Canyons and Wasatch Backcountry Alliance Boards that would provide Alta Ski Lifts expansion on its private lands in Grizzly Gulch and a connection to Big Cottonwood Canyon/Honeycomb Canyon on private lands in exchange for keeping Patsy Marley Ridge Forest Service lands in public ownership and outside the Ski Area Boundary. Option would also bring Alta into the CWNCRA. Option rejected by Alta Ski Lifts.
- 11/19/2018 – Central Wasatch Commission passes resolution to pursue the creation of the CWNCRA through Congress and requests Utah Congressional delegation to introduce and seek passage. 10/26/2018 Draft version of bill adopted, including provision to exclude Alta Ski Lifts and Town of Alta from designation, explicitly allow Alta Ski Lifts to pursue administratively all expansion and other efforts administratively. Intention is to hold Alta Ski Lifts harmless. Desire expressed by Central Wasatch Commission to continue effort to find resolution to Alta Ski Lifts-Grizzly Gulch issue.
